COVER LETTER

Dear Hiring Manager,

I am submitting my resume for the position of Senior Software Development Engineer in Test. As a skilled and highly educated professional with around 8 years of experience testing Web-based applications and Web services, I am confident of my ability to make a significant contribution to your organization.

My professional experience includes analyzing the business requirements, creating test strategies, and executing tests to identify bugs in new software and create and maintain automation packs for the same.

With my educational background and my attention to detail and performance, I am in an excellent position to help your organization to produce top-quality software products.

The following are some skills and highlights of my qualifications and experience:

- Working knowledge in AWS Secrets Manager, Kinesis, S3, EC2, SQS, Lambda, DynamoDB, Cloud Watch.
- Working experience on building automation frameworks from scratch using Java, Python, C# and JavaScript.
- Working experience on Selenium, Playwright and Cypress for UI testing using Java, Python, JavaScript and C#.
- Working experience on API testing using Postman, SoapUI, Fiddler and open source libraries in Java, C# and Python.
- Working experience on Performance testing using Grafana K6 and Apache JMeter.
- Working experience on querying Databases like SQL and MySQL.
- Working experience on development tools like .Net Core, Spring Boot, Kafka, Docker, Kubernetes and Jenkins.
- Working experience on frameworks like BDD(Cucumber, SpecFlow), TDD(JUnit, XUnit, PyTest) and Hybrid etc.
- Working experience on testings like System, Integration, Contract, Smoke, Sanity, Regression, E2E, Load, Ad-hoc.
- Experience with SonarQube to enforce code quality, coverage, duplication, security vulnerabilities, and complexity.
- Experience in building a web service using .Net Core.
- Experience in using Git, GitLab and GitHub.
- Good knowledge of SDLC, STLC and Bug life cycle.
- Worked under both Agile and Waterfall methodologies.

It would be a pleasure to learn more about the company's needs, and I would welcome the chance to provide further insight into my knowledge of technical abilities, personal attributes, and experience in building applications compatible across multiple platforms, browsers and devices.

Thank you for considering my candidacy for this position. I hope to hear from you soon to schedule an interview.

Sincerely,
Purna Sunkara
